0.1 MY JUPYTER NOTEBOOK ON SKILLS NETWORK LAB

Nikita Merwade 100% Human

I am interested in data science because I love to gain insights from data

The following code tests the gauss formula

```
[3]: def gauss(n):  
      return (n*(n+1))/2  
  
      gauss(100) == sum(range(101))
```

[3]: True

- one
- two
- three
- one
- two
- three
